Portfolio

EDUCATION

- **PDPM Indian Institute of Information Technology, Design, and Manufacturing** Jabalpur, India
Bachelor of Technology - Electronics and Communication Engineering; GPA: 8.4 August 2023 - present

SKILLS SUMMARY

- **Languages:** C/C++, JavaScript, TypeScript, Python, SQL
- **GenAI & AI:** Retrieval-Augmented Generation (RAG), Prompt Engineering, Vector Databases, LLM APIs
- **AI Tools:** ChatGPT, OpenAI GPT (3.5/4/4o), Google Gemini, Claude AI, Cursor AI, Windsor AI
- **Frameworks & Tools & Databases:** NodeJS, ExpressJS, ReactJS, NextJS, Git, GitHub, MongoDB, MySQL, Vector DBs
- **CS Core:** DBMS, OOPs, Operating Systems, Computer Networks, LLD (Basics)

EXPERIENCE

- **Zexa Technologies** January 2026 - February 2026
Software Development Engineer Intern
 - Contributed to dbDesk, a modern database management and exploration tool, focusing on improving developer experience and system usability.
 - Improved database interaction workflows, optimizing performance and reducing latency in query operations.

PROJECTS

- **HackShare – Developer Collaboration & Resource Sharing Platform** February 2025 – March 2025
Full Stack NEXT JS Application — GitHub — Live Demo
 - Developed a full-stack platform enabling developers to create teams, share resources, manage discussions, and collaborate on projects.
 - Designed and implemented **15+ REST APIs** using Node.js and Express with a modular MVC architecture and middleware-based authentication.
 - Integrated GitHub APIs to fetch repository insights including commits, pull requests, contributors, and repository statistics.
 - Built community features such as **posts, comments, likes, and pagination** to support scalable developer discussions. Implemented secure authentication using **JWT** and integrated **Multer + Cloudinary** for file uploads and media storage.

Tech Stack: Next.js, React.js, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, JWT, Cloudinary, Multer, Google Gemini API, GitHub API

- **HireCraft - Interview Platform** Dec 2025 - March 2026
Full Stack MERN Application — GitHub — Live Demo
 - Engineered a scalable MERN-based interview platform supporting real-time 1-on-1 video interviews and collaborative coding, reducing manual screening time by 40% across 50+ structured mock interview sessions.
 - Designed a sandboxed code execution engine processing 500+ test case evaluations per session with secure isolation and sub-300ms execution feedback.
 - Implemented low-latency video and chat integration using Stream SDK (< 200 ms event latency) alongside background job processing with Inngest, enabling asynchronous evaluation and improved system reliability.

Tech Stack: React 19, TanStack, Tailwind CSS, DaisyUI, Axios, Node.js, Express.js, Clerk, MongoDB with Mongoose, Stream Node SDK (Video & Chat), Inngest, REST APIs

ACHIEVEMENTS

- Attained **Pupil** rank on **Codeforces**.
- Achieved **Knight** Badge on **LeetCode**.
- Two-time Merit Cum Means Scholarship holder (Academics).
- Attained Global Rank 467 in **CodeChef** Starters 192.
- Attained Global Rank 669 in **Leetcode** Biweekly Contest 174.
